DOES MATTER

La materia ultracompatta, plasmata attraverso la più avanzata nanotecnologia, è qui. Quarzo, particelle di ceramica ed un mix di innovative resine acriliche si fondono in Keratek Plus attraverso processi esclusivi in grado di riempire completamente la struttura interna.

„Sostanza e rivelazione: il prodotto nato dalla cultura della materia emerge silenzioso, rivoluzionando ogni cosa.

Con una superficie a zero porosità che assicura la massima igienicità ed una sorprendente resistenza agli agenti macchianti, vivere la quotidianità non è mai stato così entusiasmante.

This ultra-compact material, shaped using the most advanced nanotechnology, is finally here. Quartz, ceramic particles and a mix of innovative acrylic resins are combined in Keratek Plus using exclusive processes capable of completely filling the material's internal structure.

„Substance and revelation: a product born through materials development emerges silently, and everything is revolutionised. With a zero-porosity surface that ensures maximum hygiene and surprising resistance to staining agents, living the everyday has never been so exciting.

SLIDE COOKING

L'arte di cucinare senza limiti. Una funzione di pura avanguardia permette di cambiare potenza semplicemente facendo scorrere la pentola sul piano cottura: tre diverse aree a potenza differenziata per gestualità fluide e misurate.

The art of cooking without limits. Pure cutting-edge function allows you to change power simply by sliding the pan across the hob: three different areas of differentiated power for smooth, measured movements.

FLEX FUNCTION

Tutto il calore che serve, solo dove serve. Il piano si riscalda unicamente nell'area di appoggio della pentola per una sicurezza assoluta ed un sostanzioso risparmio energetico.

All the heat you need, only where you need it. The hob heats up only in the area where the pan is positioned, guaranteeing absolute safety and substantial energy savings.

A SERIES OF PRODUCTS WITH SPECIFIC FEATURES, DESIGNED TO FACILITATE CLEANING AND MAINTAIN THE BEAUTY OF ELLECI PRODUCTS OVER TIME.

DISCOVER

elleci | BEAUTY

Mantenere nel tempo l'estetica e la funzionalità del prodotto è estremamente semplice. E' sufficiente pulire ed asciugare quotidianamente utilizzando detergenti neutri o specifici della linea Elleci Beauty senza lasciare che depositi e residui agiscano a lungo sulle superfici.

Maintaining the aesthetics and functionality of the bowl over time is extremely simple. Just clean the bowl daily with water, dish detergent or Elleci Beauty specific product and a soft cloth, without letting deposits and residues act for a long time on the surfaces.

Rimuovere eventuali macchie utilizzando una spugna morbida e un detergente neutro per i piatti o un prodotto specifico della linea Elleci Beauty.

Remove any stains using a soft cloth or sponge with normal dish detergent or a specific Elleci Beauty product.

Asciugare con cura la superficie con un panno morbido o in microfibra per impedire la formazione di depositi di calcare.

Dry the wet areas thoroughly with a microfibre cloth to prevent the formation of limescale deposits.

Risciacquare abbondantemente le superfici utilizzando acqua tiepida.

Rinse the surfaces thoroughly with warm water.

Per prevenire la formazione delle macchie di calcare sulla superficie, si raccomanda di eseguire una pulizia più approfondita una o due volte alla settimana utilizzando un detergente anticalcare disincrostante come lo spray anticalcare Daily Clean della linea Elleci Beauty.

To prevent the formation of limestone stains on the bowl, it is also recommended to decalcify the bowl once or twice a week, using a descaling detergent or a specific Elleci Beauty product as Daily Clean anti-limescale spray.
